Four Companies. One Goal.

- Barchart.com
- Commodity Research Bureau [CRB]
- The United States Chart Company [US Charts]
- Digital Data Feed [ddf]

With a heritage dating back to 1934, The Barchart Companies have been meeting the informational needs of the financial industry with our market data services, an extensive array of market tools and analytics, and solid customer service. As an established leader in an industry that demands accuracy and innovation, our goal is to form partnerships that deliver comprehensive solutions for your success.

The Barchart Companies

barchart.com™

Barchart.com offers an extensive selection of web-integrated solutions for the financial community including retail products, web content packages, custom private labels, co-brand pages, and free applets. We provide proven solutions that serve every trader from novice to expert, from educational trading newsletters to complex real-time charting and analysis applications.

crb™ - Commodity Research Bureau

Since 1934, CRB has been the recognized world leader in commodities and futures research, data, and analysis. Best known for its printed charts and the development of the CRB Index - a global benchmark for measuring commodity price movement - the financial industry trusts CRB for its comprehensive historical database, email and print newsletters, and research books.

us charts™ - The United States Chart Company

The many educational products and services provided by US Charts have brought more new retail commodity traders into the industry than any other source. With a strong commitment to educated clients, US Charts has demonstrated its leadership position by delivering printed charts and commodity trading materials, as well as "The World's Greatest Business" products, to more than 750,000 users around the globe.

ddf™ - Digital Data Feed

ddf is a full-service provider of futures and equities financial market data from all major exchanges. As the preferred partner for many of the world's leading financial services and software companies, ddf's data feed is trusted to support their high-end professional business applications and custom solutions for individual users. We are unrivaled in our expertise to custom-tailor a solution based on your needs.

 - ddf Proprietary Data
- Query/Response XML
 - Real-time
 - Delayed
 - EOD

The Foundation for Success

The driving force behind The Barchart Companies is the **ddf data feed**. It powers all Barchart, CRB, and US Charts applications and is used independently by leading financial institutions as their own custom data source. It is fast, reliable, and is the most complete and accurate futures and commodities database in the world.

The **ddf data feed** receives tick-by-tick information direct from the exchanges. Broadcast as a direct relay of the original exchange data or as an aggregated digital data feed, our technology is among the fastest on the market and our goal is to provide the timeliest, most accurate data available.

Earning Your Confidence, Day After Day

When you partner with Barchart, you can be confident that we have your unique business objectives in mind. The Barchart Companies continue to meet the demanding needs of hundreds of leading financial institutions, thousands of their clients, and millions of individual traders worldwide. You can be confident in your choice for a dependable data provider - confident that your data is accurate - and confident that you and your customers will receive the best support in the industry.

Barchart Business Solutions

Streaming Data Solutions:

Immediate, dependable market data feeds

Barchart delivers streaming data via private line or the internet. Choose to receive the original exchange broadcast feed, **Barchart's** proprietary aggregated feed, or a combination of both. Flexible API's and integration tools minimize your development time, and let you quickly integrate the data into your systems. **Barchart** solutions reduce total cost without compromising on quality.

Snapshot Data Solutions:

Accurate daily prices & historical information

Applications requiring snapshot or periodic data can query our servers for **real-time, delayed, or historical price information**. Data is delivered as XML - or in any customized format of your choice.

Historical Data Solutions:

Worldwide coverage of futures and commodities markets

ddf maintains the most complete and accurate futures, commodities, and futures options database in the industry. Our database has futures and options data going back to the start of trading, and cash data, in some cases, going back to the 12th century.

Web Content Solutions:

Custom solutions tailored to your specific needs

With a client-focused point of view, we can incorporate any of our market data services into your website to match your specific requirements - your needs, your style, your objectives. Integrated web content includes quotes, advanced charting, technical analysis, and many other features.

Our strength lies in the outstanding commitment of our people, our comprehensive solutions, our technology, and our commitment to being the very best.

Market Data Services for Every Requirement
